FH Pamphlet 210-2
Change 1

1 November 2004

Installations

FORT HUACHUCA HANDBOOK FOR FAMILY HOUSING OCCUPANTS

Summary. This change authorizes mandatory microchipping of all privately owned dogs and cats residing on Fort Huachuca.

1. FH Pamphlet 210-2, 29 August 1995, is changed as follows:

a. Page 13, paragraph 19, Pet ownership and control. Add the following paragraph e after paragraph d:

e. All soldiers residing in post housing are required to have their pets microchipped within 30 days of acquisition of quarters. If the pets are already microchipped, proof must be provided to the Veterinary Services, Bldg 30009. If soldiers that reside on post have their animal seen by the post veterinarian for vaccination or sick-call appointments, the soldier will not be allowed to check out unless the pet is microchipped. Animals in our stray facility will not be released until the pet is microchipped. All those soldiers currently residing in post housing have until the suspense date of 1 February 2005 to have their pet microchipped or provide proof to Veterinary Services that it was done elsewhere.

2. Post this change in accordance with DA Pam 25-40 and file this change in front of the publication.

CI, FH Pam 210-2
